Storyboard Writing

Scrum Methodology

Sprint Planning

Roadmap Creation and Maintenance

Reporting/Data/Metrics

ABOUT US

Our experts meet with your teams and your leaders to understand your culture and current processes. We learn which Agile practices will be most beneficial to you in the short-term and which can be adopted a bit further down the road. And, some which other organization may embrace whole-heartedly, may not be a fit for you.
At Keyva, we believe that the key to success in Agile is understanding that the practice of adopting and implementing is also an Agile practice.

OUR CAPABILITIES AND SOLUTIONS

Agile Transition Offering

Agile Optimization Offering
